

BreatheDRY™ Absorbent Breathable Underpads

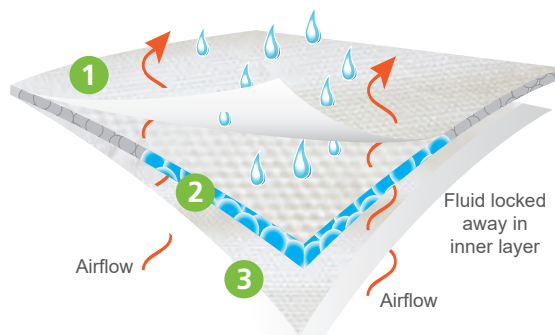

A new era in breathable underpads

The BreatheDRY™ Absorbent Breathable Underpads are a white, soft flat sheet with an absorbent layer and a waterproof breathable underside that stops fluid from getting through to the surface below and wicks away moisture to protect the patient's skin. Designed to be breathable, manage climate control, and preserve skin integrity.

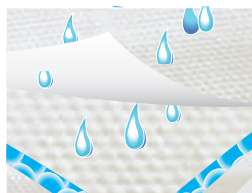

THREE LAYERS OF PROTECTION

- 1 Soft, non-woven air-permeable top layer** is gentle on the skin of the very young to the very old, as well as vulnerable and fragile skin during periods of illness
- 2 The super absorbent inner layer** allows body fluids to be taken away from the skin. The fluids are locked in the inner layer to keep skin dry.
- 3 The breathable, waterproof backing** assists with the containment of fluid for safe disposal

**99.87%
MOISTURE
IS LOCKED
IN AFTER
5 MINUTES**

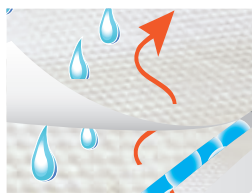

Moisture management

Preserving the micro-climate, the BreatheDRY™ draws in moisture, locks it away from the skin and feels dry to the touch in just minutes.

High level fluid handling capacity

Absorbs 3.2 liters per m² (AWTA 62) which assists the containment and safe disposal through control of fluids.

Breathable backing

Permits air flow with air-permeable backsheet. Compatible with all pressure redistribution surfaces, including low air loss mattress therapy. 20 times more breathable than traditional blue underpads.

Reduce cleaning costs

By protecting your bedding, air-assisted patient transfer mats, OR tables, equipment, and patient slings.

BreatheDRY™ SIZES AND APPLICATIONS

BreatheDRY™ PROTECT 78" x 39" w/ Standard Backing
Protects bedding, patient repositioning slings, equipment, air-assisted transfer mats, and OR tables.

- Absorbent area: 70" x 35"
- Maximum absorbency: 6.4 liters
- Each pad weighs 12.1 oz.
- Standard back sheet (1.9 oz/yd²)
- Individually sealed, 20 per box
- Item # BH8D8040**

**Absorbs
6.4 Liters**

Air transfer mat protection

Operating room table protection

BreatheDRY™ w/ Heavy-Duty Backing is built for turning and repositioning protocols for patients up to 300lbs.

BreatheDRY STANDARD 31" x 35

- Absorbent area: 27" x 31"
- Maximum absorbency: 2.3 liters
- Each pad weighs: 5.3 oz
- 60 per box (6 bags of 10)
- Item # BH8D3135**

**Absorbs
2.3 Liters**
