

EZ Way, Inc.

*"Your Total Safe Patient
Handling Solution"*

Erie

**The RK12E Erie is a freestanding tub that allows
the caregiver 360° unobstructed access when
bathing a resident.**

RK12EFV - Erie - Front Valve

Front Valve

RK12EFV Ergonomic and easy
access for the caregiver.

Side Valve

RK12ESV Convenient
location for the
independent bather.

Exclusive Key Lock Design

Utilizing a proven design principle
in architecture the key lock
design system will guarantee the
swing out door on a rare tub will
not leak.

The low threshold and wide side-entry door allows easy access for residents with various degrees of mobility and the built-in contoured seat allows the resident to sit comfortably and safely in a slightly reclined position. The valves can be positioned in 2 different locations; One placement is on the side for the RK12ESV and the second placement is on the front for the RK12EFV. Designed to create the atmosphere of a luxury spa, the sleek exterior design of the RK12E Erie will give your bathing area an upscale look.

Caregivers will enjoy the RK12E Erie for its ease of use and improved quality of care for all residents in a more streamlined and affordable package. Featuring a full range of items included as standard, the RK12E Erie is designed to enhance the bathing experience for all residents.

"Your Partner In Safe Patient Handling"

Standard Features

- Thermostatic Mixing Valve with anti-scald protection that dispenses up to 16 gallons per minute for fast tub fill.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Digital Thermometer for monitoring water temperature within bathing system.
- Lap and Shoulder Harness for resident safety.
- Secondary Door Lock to prevent accidental door opening when in use.
- 3/4" Supply Lines constructed of stainless steel.
- **Secured door system via the unique "key lock" design provides a guaranteed seal without additional motors or compressors.**

Optional Features

- CleanRane™ Air Spa System with variable speeds that enhance the therapeutic and relaxing effects of bathing for the user.

Why CleanRane™ Air Spa System?

The CleanRane™ Air Spa System enhances the therapeutic and relaxing effects of bathing and provides a pleasant experience for the resident. Hydromassage provides millions of preheated air bubbles in the water which increases stimulation of peripheral blood circulation, reduces pain and inflammation in the joints, gently massages away dirt, and induces deeper relaxation. The hygienic, low maintenance CleanRane™ Air Spa System features 12 air jets with spring loaded check valves for back flow prevention. Unlike most other whirlpool and air spa systems, the CleanRane™ Air Spa System does not allow water to enter the air lines, which can become a breeding ground for bacteria and mold. The motor is quiet, efficient, and has a ceramic heating element that blows warm air to help maintain the water temperature and warm the surface of the tub.

The optional air jets on the CleanRane™ **Air Spa System** feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

Technical Specifications

Length	61.5"
Width	33.5"
Height (to top of door)	35" (lowest setting)
Height (to top of console)	42" (lowest setting)
Adjustable Leveling Legs	2" max.
Seat Width (interior)	21.5"
Seat Height	19" (lowest setting)
Threshold Height	11" (lowest setting)
Transfer Device Access	7" H x 44" W
Weight Capacity (occupant)	600 lbs
Water Capacity (occupied)	48 gallons
Fill Time	3 minutes, 12 seconds
Drain Time	1 minutes, 58 seconds
Water Supply Inlet	3/4" diameter
Drain Size	1.5"
Electrical Supply	115V AC; 60Hz; 15 amp
Door Swing	Outward
Door Configuration	Right Hinge Only

Standard **Easy to Use**
Control Panel

Optional **Disinfectant Cabinet**

Warranty: 30 years for external finishes and composite shell, 1 year for all moving and stationary parts, and lifetime on the door seal.
